Applicant's arguments filed on 08 December 2004 have been fully considered. Claims 1-14 and 16-23 are therefore allowed.

***Examiner's Statement Of Reasons For Allowance***

The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose or reasonably suggest a transmission component and method for producing chromatic dispersion comprising of a glass optical fiber waveguide to carry light, two pairs of Bragg gratings with at least one chirped Bragg grating in each pair, where the first Bragg grating in each pair reflects light back to the other Bragg grating in the pair in the opposite direction and emerges substantially in the direction of the incidence. The closest prior art of record is U.S. Patent 5,903,683 to Lowry. Lowry discloses a transmission component comprising of a multimode fiber optical waveguide with three gratings connected in series, where the grating reflects arriving light back to another grating and that grating reflects light back in the opposite direction to another grating. But Lowry fails to disclose two pairs of Bragg gratings, where at least one of the gratings in each pair is chirped. Furthermore, in Figure 6, Lowry discloses the final grating to be a forward Bragg grating as opposed to Applicant who discloses the final grating to be a backward reflecting grating. Therefore, claims 1-14 and 16-23 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

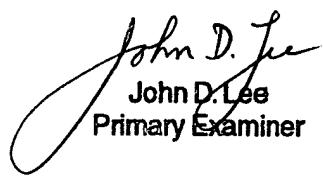

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Reference A discusses multiple chirped gratings in an optical fiber line, but fail to disclose or reasonably suggest the allowable subject matter discussed above.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tina M Lin whose telephone number is (571) 272-2352. The examiner can normally be reached on Monday-Friday 8:30-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rodney Bovernick can be reached on (571) 272-2344. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
